

New door solution for refrigerated cabinets

Made by highest quality PET plastic

- Safe
- Light
- Transparent
- 100% Recyclable

FULL VISION DOORS

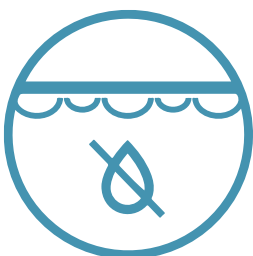

SUITABLE FOR 100% RECYCLING!

PET bottles can be re-used to produce Full Vision frameless doors and vice versa

Advantages

- High optical quality and outstanding clarity
- Maximum visibility of products & minimum energy consumption
- Half the weight of glass
- Anti-scratch coating to enlarge durability
- Frameless, double pane full vision
- High quality water resistant hydraulic hinge system

**ANTI
CONDENSATION**

**ANTI-SCRATCH
COATING**

Technical specifications

Door Heights	1200-2000 mm
Door Widths	618 mm (typically, deviating widths possible)
Configuration (Sheet/Cavity/Sheet)	4-20-3 mm (Dry air filled)
Thermal conductance (EN673/12898)	< 2,6 Wm²K
Light transmission (ASTM D1003)	>89% (0 mm)
Weight	13,5 kg (1850 mm height)
Water absorption (ISO62)	0,15%
Tensile modulus (ISO527)	2600 MPa
Flame resistance (BS 476 Pt7)	Class 1
Flexural strength (ISO 178)	86 MPa
Impact Strength (ISO179)	No breakage
